

Have you been laid off or received notice of layoff?

You may be eligible for additional free services through the Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker program.

Certified dislocated workers may be eligible for one-on-one job development, retraining funds, special consideration for financial aid for themselves or immediate family members, and additional support services

To see if you qualify for these services, take the following steps:

Step 1

Attend a WIOA orientation/information session at your nearest American Job Center. This session will provide you with information on the array of reemployment and supportive services that are available.

Step 2

Complete Dislocated Worker certification paperwork and provide necessary documentation.

Funds for retraining are not an entitlement and are limited. For more information on the individual assistance available for dislocated workers, please call the American Job Center nearest to you.
